

# WELCOME TO Dr. Moyer's Lab!

## MEET THE LAB MEMBERS

### LAB DIRECTOR Anne Moyer, Ph. D.

Hello! I study psychosocial issues surrounding cancer and cancer risk, medical decision-making, gender and health, relationships and health, research methodology and meta-analysis, and the psychology of research participation.

### GRADUATE STUDENT Elizabeth Johnson, B.A.

Hi there! My research interests surround behavioral and psychosocial interventions for chronic health conditions. My goal is to use social and health psychology to develop a results-driven approach to health promotion, treatment decision-making, and the prevention and management of disease.

### GRADUATE STUDENT K. Olivia Mock, B.A., M.A.

Hey folks! I am interested in utilizing grounded theory qualitative analysis to assess attitudes toward sterilization and how individuals decide which contraceptive method to use. My goals are to identify specific facets of the decision making process for future research and intervention.

### GRADUATE STUDENT Rose Martillotti, B.A., M.A.

Welcome to the lab! My research focuses on medical decision making, disparities in screenings, risk factors, and treatment options. I am also interested in the relationship between social influences and protective factors on well-being and health-related behaviors, especially in regard to physical activity.

### GRADUATE STUDENT Kiersten Pflueger, B.A., M.P.H.

Greetings! My research interests are understanding various psychosocial factors that impact adjustment, coping, and self-management in patients with cancer. Additional interests include patient-physician relationships and communication, medical decision making, and end-of-life care and care planning.

### UNDERGRADUATE STUDENTS Katie Hsu & Devika Patel

Hello! I'm Katie. I'm a junior pursuing a Psychology B.S. degree. I have been a Research Assistant in Dr. Moyer's lab since August 2023.

Hi all! My name is Devika Patel. I am a third year Psychology student on the pre-med track. I have been a Research Assistant in Dr. Moyer's lab since January 2023.
